For most people, tinkering with and testing an open flame grill in your garage is not a good idea. But Mark Nureddine is not most people. And his efforts with a grill in a closed environment were the genesis to a company that would become one of the leading manufacturers of grill islands in the world. Under Nureddine's direction and leadership for almost three decades, Bull Outdoor Products has grown to provide grills, islands and accessories to over 900 dealers and distributors throughout North America, as well as 15 countries.
