

indu+ 380 TEPPANYAKI on induction

DESIGN

- Latest generation induction
- 2 independent thermostatically controlled griddle areas (front & rear) – each 1400 W
- Slider touch control with direct access to each of 10 heating levels
 - 0-9
 - cleaning level
- Dynamic temperature display for both cooking areas
- 2x Timer
- Stand-alone timer
- Locking touch
- Stop&go function
- Cleaning touches dedicated to each zone
- Bridge function allows to couple both zones.

ADVANTAGES

- Ready to cook within 2 minutes
- Fast and healthy cooking thanks to the reactivity and power of induction technology (=> no noxious fumes)
- Adapted to all type of food: vegetables preserve their the nutritional qualities and thick pieces of meat are seared rapidly and remain juicy.
- Cleaning touch for each zone

ECO-DESIGN

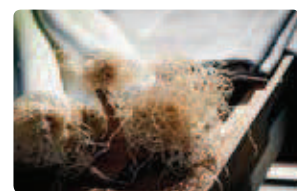

- Standby consumption < 0,8W
- 100% recyclable packaging

INCLUDED ACCESSORIES

- 2 spatulas

SECURITY

- 2x residual heat indicators
- Auto-Stop (in case of inadvertent start, long absence, over-temperature)
- Protection against wrong electrical connection (400V overvoltage)

indu+ 380 TEPPANYAKI on induction

◀38▶	INDUCTION 2800W									GERMAN TECHNOLOGY
			2+1		x		x			

INSTALLATION

- Electrical network 220-240 V ~, 50/60 Hz
- Dimensions (LxP) : 380 x 520 mm, R=5
- Adapted for flushline installation

indu+ 580 TEPPANYAKI on induction

DESIGN

- Latest generation of induction technology
- 4 independent thermostatically controlled griddle areas (left and right zones can be bridged)
- 4x slider touch control with direct access to each heating level
 - 0-9
 - cleaning level
- Dynamic temperature display for both cooking areas
- 4x Timer
- Stand-alone timer
- Locking touch
- Stop&go function
- Cleaning touches dedicated to each zone
- Bridge function allows to couple both zones.
